

Jack Transue

Full Stack Developer |
Creative Tech and
Automation

education

IRONHACK

DECEMBER 2020

Full Stack Development Program

9-week intensive web development bootcamp.

- Front end technologies learned: HTML, CSS, JavaScript, React
- Back end technologies learned: ExpressJS, NodeJS, MongoDB, Axios

EMERSON COLLEGE

MAY 2016

Bachelor of Arts, Post Production

Transferred to Emerson College from San Diego State University where I took courses in Computer Science - specifically JavaScript, Java, Unix, HTML & CSS

experience

FREELANCE WEB DEVELOPER

JULY 2016 - PRESENT

- Development and consultant for various startups and agencies including a recent senior web development role for a leading pharmaceutical company.

BYTE NEW YORK

MAY 2018 - OCT 2020

Creative Technologist/Shooter/Editor

- Designed and engineered large batch video automation technologies using JavaScript.
- Programmed HTML creative for clients such as Google and Spotify.
- Repositioned company direction towards web development.

TOWNSQUARE MEDIA

JUNE 2017- MAY 2018

Video Shooter/Editor

- Lead producer for several publications.
- Analyzed Youtube streaming data in order to best pitch creative content.

As a full stack engineer with a creative background, I seek out intuitive and innovative coding solutions for companies so they can focus on the big picture.
